DETAILED ACTION

Allowable Subject Matter

1. Claims 1-5 are allowed.

2. The following is an examiner's statement of reasons for allowance:

The current invention discloses a method and system for canceling the second harmonic generated from a first amplifier by combining said second harmonic with a leakage signal 180° out of phase from a second amplifier operating at a frequency band about twice of the first amplifier. Prior art of US 4,811,422 (KAHN) and JP 11-355056 (MATSUDA) teach canceling second harmonic by taking a canceling signal from the same amplifier and shifting it 180° before combining. KKAHN and MATSUDA fails to teach taking a cancellation signal from a second amplifier operating at a frequency about twice of a first amplifier. Prior art of US 6,366,788 (FUJIOKA et al) and US 6,400,963 (GLOCKLER et al) each teaches a dual frequency bands system and canceling harmonics by filtering. Neither Fujioka or Glockler teaches or suggests taking a cancellation signal from another frequency band.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
